KIDDIES, ATTENTION!

Friday is Circus Day

For Blaimore Children

Blaimore Lodge of Elks

Invite All Blaimore Children between the age of 4 and 6 years, and all public school children, to be their guests at the

Conklin & Garrett Circus

Parade at the Central School Grounds at 2 o'clock Friday afternoon for your

FREE TICKETS TO THE RIDES, ETC.

FRIDAY IS ELKS' KIDIES CIRCUS DAY

The Conklin & Garrett All-Canadian show arrived this morning, and immediately began to unload their special fourteen-car train and erect their tented fun city of riding devices and shows on the ground across the river on Fifth Avenue, to fulfill their three-day engagement working in conjunction with the local Elks' lodge.

In keeping with the tradition of Elk activities to "make life sweeter, men better and the world happier" and following up successful events of the kind in the past, the kiddies of the town will be the guests of their big brother Bils at the circus tomorrow (Friday) afternoon, when free tickets for rides, etc., between the hours of 2 to 6, will be distributed by a committee from the lodge to all children between the ages of 4 and 6 and all public school children, and in addition "Paddy" Conklin, genial manager of the concern and a brother of Bill himself, has granted a special rate of 5 cents to all children. The children will meet at the central school grounds, where a show of dress will be given by C. J. Tompkins, exalted ruler, receive their tickets and then parade over to the circus for "their day" of the year and a lot of fun.

In connection with the visit of this organization this year and owing to dates conflicting with those planned by the annual Bellevue carnival, the Elks have donated \$200 of their guarantee towards the Bellevue fund and Bellevue has postponed their dates to Sept. 1st and 2nd. This action on part of the Elks is in line with their policy to use funds raised in this manner for community purposes, and together with the cost of the kiddies day, will revert all they derive back in the channel for which it was raised.

SCHOOLS TO RE-OPEN TUESDAY

The Blaimore public and high schools will re-open for the fall term on Tuesday morning next with the following teachers in charge: Donald Macpherson, principal; Mr. R. Racette, B.A., first vice-principal, and Miss M. T. Davis, B.A., second vice-principal, for high school; Miss G. Fry, grade VIII; Miss K. Tompkins, grade VII; Miss D. Cox, grade VI; Miss F. Warner, grade V; Miss S. McVey, grade IV; Miss L. Brunetto, grade III; Miss E. Fisher, grade II; Miss J. Cameron, grades I, II and III, west end, and Mrs. C. E. Fleming and Miss B. Valetka, primary.

School results in departmental examinations were as follows: Grade IX, Doris Craig, highest marks, 87.1%; class pass average 82%. Grade X, Betty Thompson, highest marks 82.2%; class pass average 63.2%. Grade XI, Ingrid Lund, highest marks, 76.3%; class pass average 78.6%. Grades nine and eleven attained a creditable pass average, while grade ten appeared weak.

Around two thousand acres of crops were damaged by a severe hailstorm in the neighborhood of Champion last week end.

DEATH OF ALEX. C. MCINTYRE

There passed away at the residence of Bellevue, Alberta, at 10.15 p.m. Friday, August 22nd, a highly esteemed and respected person, namely, Alexander C. McIntyre. Mr. McIntyre lived the greater part of his life at Lanark, Ontario, coming to Alberta in June, 1919, where he has made many friends. He enjoyed good health throughout his life, with the exception of the past month, being confined to bed only one week before passing away at the age of 50 years and 8 months.

Deceased was born at Hopetown, Ontario, the second son of Alexander McIntyre and Jane Muill. He was united in marriage to Elizabeth Rodgers, on the 17th day of June, 1875, and to them was born a family of two, Alexander, deceased, and Elizabeth, Mrs. Wm. McKay, of Bridgeford, Saskatchewan.

On the 18th day of October, 1881, he was united in marriage to Sarah Ann Smith, and to them was born a family of four sons and four daughters, namely, Willie, Annie, and Walker, all deceased; Ida, Mrs. A. D. Ross, of Coleman, Florence, Mrs. D. A. Perry, of Strathmore; Anna, Coleman, Mrs. D. T. Hutton, of Bellevue; Willie, of Champion, and Gordon, of Bellevue. Two brothers and one sister survive him, Bella, Mrs. Ballyntyne, of Vancouver, B.C.; Dave, of Almonte, and Jack, of Lanark. William, eldest brother, predeceased him February 28th, 1930.

Funeral services were conducted on Sunday last by Rev. Mr. Wood from his late residence at Bellevue. The pallbearers were Messrs. Findlay McLaren, Sam Ennis, John Jackson, Wm. Kerr, John Shevels, and George Coupland. Interment took place at the Blaimore cemetery.

Mrs. A. C. McIntyre and family desire to thank their many friends for expressions of sympathy, which included the following beautiful floral tributes: Wreaths—The Family; Dave Morris and family, Bellevue; A. S. May and family, Blaimore; John Jackson and family, Coleman; sprays—Masonic Lodge, B.P.O. Elks, Mr. and Mrs. J. M. Moffat, Mr. and Mrs. Walter Harris, Mr. and Mrs. G. L. Deque, Mr. and Mrs. F. Clever, of Champion; Mr. and Mrs. C. J. Tompkins, Mr. and Mrs. S. Ennis, Mr. and Mrs. F. McLaren, Mr. and Mrs. C. Millar and Margaret, of Blaimore; Miss Bessie Morris, Johnson & Cousins, Mr. and Mrs. J. Shevels, Kerr Bros., Mr. and Mrs. E. Fisher, Mr. and Mrs. J. Fisher, Coupland family, Mr. and Mrs. C. Emmerman, Mr. and Mrs. F. Wolstenholme, of Bellevue.

FRANK SCHOOL

The Frank school will reopen after summer holidays on Tuesday, Sept. 2nd, with Principal Drake in charge, assisted by Miss Grant, of Hillcrest.

In the department examinations, out of 35 units in grade IX, 29 passes were recorded, while seven out of eight pupils passed the grade VIII tests.

Why not have the unemployed eat wheat, and thereby reduce the over production. It would also put on flesh and relieve the elevators.—"Sid"

HER FAT IS MELTING
FAST AWAY

All over the world Kruschen Salts are appealing to girls and women who strive for an attractive, trim figure. This cannot fail to win admiration.

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses.

Every morning take one-half teaspoon of Kruschen Salt with a glass of hot water before breakfast.

Be sure and do this every morning for it's the daily dose that takes off the fat! Don't miss a morning. Kruschen daily means that every particle of poisonous waste matter and harmful acids and gases are expelled from the system.

At the same time the stomach, liver, kidneys and bowels are toned up and the pure, fresh blood containing Nature's six life-giving salts is carried to every organ, gland, nerve and fibre of the body, and it is followed by "that Kruschen feeling" of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

CHAPTER XXVI.—Continued.

"I don't want anything but a cup of tea, dearie, and maybe a slice of toast. I remember Edward Howe saying that old folks don't need much come night. And—see here, childy—the doctor told me about your plans and everything. I guess he thought he'd save you the trouble, and you're not to worry about me. I've always thought it would be kind of fun to live in a small house, and it'll be a sight easier for you. It'll be easier for me, too, not to go over the stairs come night. Besides, I'll be able to see a half block farther down the street from that window! And it's going to be wonderful—having you home all day. You needn't worry a mite about how I'll make it, Charman. Between you and me, dearie, I think it's going to be fun!"

Only after the girl had turned away, undecided, and unable to speak at this display of bravery, did the old life breathe.

Thank God that's over, murmured Grandma brokenly, while two big tears crept slowly down her wrinkled cheeks.

CHAPTER XXVII

There were times during the days that followed when Charman found it difficult to believe that she and Grandma would ever leave the shelter of the homestead. They seldom talked about it, but when she impending changes could not be ignored, the old lady spoke cheerfully, stoically refusing admittance to the tears that lay so near the surface. Only when she was alone did her face show any of the gloomy that stifled her tired old heart. These were hard days for Grandma Davis.

"Seems somehow as if she'd grown smaller—shrinker, you might say," commented Charman to herself. "How knows! It ain't easy to make changes at Grandma's age; and she's keepin' up before Charman move's good for her. And I'm sorry for Charman, too. I ain't ever see a young person that set such store on anything old as she does on that old house. I declare, Salina, there's times when I wish whoever's buyin' it would back out of his bargain."

But Miss Lizzie was not to get her wish. It was the last day of August when George K. called Charman as she passed the bank, and led her into the little room which had a formidable "Private" on its door; but which was in reality no more private than the air we breathe, because only on rare occasions did the president of the Wickfield National close his door. He closed it now, however, and asked: "What you been up to this afternoon?"

Charman smiled as she responded: "Why all this privacy? I've been to

the library, as you might deduce from this array of books. But I got more than the books, Uncle George. I got a job! Miss Garfield has asked me to help at the library an hour each afternoon. Isn't that wonderful? I can easily leave Grandma that long, or get Miss Lizzie to come in and sit with her; and it will bring in a little money. It was Gary's idea. I'm going to stop at his office now and thank him."

"Well, that's fine!" George K. spoke cheerfully. "It'll do you good to get away each day, and see folks. What'll I expect you in for, Charman, was to say that you can sign the deed at ten o'clock tomorrow. I just got word that your man will be here then, and wants to see you. I told him to come to the bank—thought maybe it would be hard for Grandma to see the act done, as you might say. I'm thankful now, child, that she decided the place to go. It would be hard for her to sign the house away. There, Charman, if you feel like crying, cry on my shoulder, but I advise you to buck up. In the long run most things come out right in this old world. If I didn't believe that truth I shouldn't be as happy as I am, or as fat, either."

"Oh so helpful to the rest of us," added Charman. "It's all right, Uncle George. I did my crying long ago, and have since acquired such a stiff upper lip that it sometimes hurts! But as Grandma's probably hurt a great deal more, I don't doubt I'll be here at ten. Now I must run up and thank Gam Garfield for his suggestion, and then skip home. Thanks for—everything!"

Haven't you forgotten something?" asked George K. as she reached the door.

Charman turned, her eyes aglow with sudden merriment. This was an old joke of childhood's days, when as a little lass she often slipped into the room marked "Private," in search of the wee pink checkers which George K. used to tell her "grew in his pockets." If, in those days, she forgot to bestow upon him a grateful kiss, he reminded her thusly and was rewarded by a sometimes strangling embrace. She came back now, laughing as she kissed him. Then the door closed behind her, while George K., watching from a window, saw her cross the street and start up the narrow stairs that led to Gary Garfield's office in the building opposite.

"My Bill must have been crazy when he let that girl slip through his fingers," he complained to the four walls. "However, all's well that ends well, and I hope."

What he hoped was interrupted by a fellow banker from Eastboro, who, as was everybody's custom, walked in minus the formality of a knock.

Charman, finding Gam's busy, with a client, delivered her thanks briefly and moved on up Main Street with lagging feet. No need to tell Grandma that the dread day was at hand, she thought. Let her sleep in peace, for she had her own work to do. As for herself, she must swallow that lump in her throat and remember, as George K. said, that things usually turn out all right. It was wonderful that Miss Garfield needn't help at the bank just now. She must write Jim about it—if ever he answered her last letter. Miss Lizzie's latest bulletin from California had brought news that he had "a girl" for her. Perhaps she'd too busy playing "round with her" to write to "the girl he let behind him," thought Charman whimsically, and, having reached the house, stopped to look up at the carved pineapple above the door.

"I hope they'll give it the coat of gold leaf it deserves," she said, and went inside, laid her books on the table by the door, and then stood still, staring into the room that had been a shop for almost as long as she remembered.

"Haven't you a word of greeting for the returned prodigal?" asked Jim Bennett.

He arose from where he was sitting beside Grandma, and caught Charman's hands in both of his.

"Steady!" he said. "Folks have been known to expire of shock. I'd have warned you of my arrival but I started at a moment's notice, amidst, sit down, Charman, and catch your breath."

He pushed her gently into the rocking chair, and drew up a straight-backed old Chippendale for himself. In a sort of daze Charman heard her grandmother say anxiously: "Heddy! you better get her a drink of water!"—and at that she laughed.

"I'm not faint," she protested, "merely stupid dumb, as you might say, Jimmy, you look—well—"

"Different doesn't he?" put in Grandma, and Charman, noticing her for the first time since that awful old face looked happier than it had for days. "He's got a sort of air about him," she was saying. "I saw it right off when he came in. He looks—stylish."

"Gosh!" breathed Jim. "You talk

LUMBAGO?

A pain in the lower part of your back can torture you. But not for long, if you know about Aspirin! These harmless, pleasant tablets take away the misery of lumbago, rheumatism, neuralgia, headaches, toothaches, and systemic pains of women. Relief comes promptly; is complete. Aspirin cannot depress the heart. Look for the Bayer cross, thus:

like my mother before she fell in love with a fruit ranch."

Charman laughed, spontaneously. Grandma asked: "You mean you're playing second fiddle these days?"

"Something mighty near it," grinned Jim. "Will you believe it, Grandma, my dotting mother hardly noticed when I deserted. I left her sampling a new variety of citron. Gee! but it's good to be home!"

"Then you haven't fallen in love with California," began Grandma, interrupting in horrified reproof.

"What do you mean, child, asking such a question?"

"It was only going to say in love with California," explained the girl, and Jimmy roared.

"No," he replied, after his mirth had somewhat subsided. "I didn't lose my heart to California. It has its good points, of course. Mother and Aunt Sophie are nuts over it—boomers, I call 'em; but as for me—I wouldn't swap one of Wickfield's winding, elm-shaded streets for the whole darn state of California, and that's the truth."

"There!" ejaculated Grandma with satisfaction. "I always said that there's not a prettier spot on earth than Wickfield. Here comes the doctor, Charman. He seems to be in a hurry. Maybe."

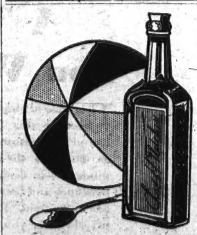

But with haste that seemed to both Grandma and the young man rather uncalculated for, Charman sprang up and was at the door when John Carter reached the steps. She did not guess that in the moment that followed, both those loyal hearts in the room beyond were to be wrenched almost to the breaking point: She did not realize that the front door was reflected in the long mirror that hung beside it, nor would it have troubled her if she had known. All she saw, or thought of was the light in John Carter's eyes as he thrust a scrap of yellow paper into her hands. She read the message and looked up, her lovely face reflecting the happiness that shone from his; and the next moment he caught her in his arms and kissed her, rapturously, ecstatically.

If baby has
COLIC

A CRY in the night. Colic! No cause for alarm if Castoria is handy. This pure vegetable preparation brings quick comfort, and can never harm! It is the sensible thing when children are ailing. Whether it's gas stomach, or the little bowels colic or constipation; or diarrhea. When tiny fancies are cooled, or the breath is bad. Whenever there's need of gentle regulation. Children love the taste of Castoria, and its mildness makes it safe for frequent use.

And a more liberal dose of Castoria is always better for growing children than strong medicine meant only for adults use.

Getters
CASTORIA

Advertising England

No Country in the World That Offers Greater Attractions

Britain, as Kingling said of Lord Roberts' "deeds," "advertises." Sir James Barr, late high commissioner for New Zealand, has been telling advertising men in London, that "Englandmen are, too reticent."

"Why, he asks, should it be 'bad form' to talk about themselves and their country, especially when, as he says it, no other can compare with it in point of 'human interest'."

"What country has such wealth of historical places, such cathedrals, such homes both great and small?" he wants to know. And as for England's countryside in springtime, he says, "there's nothing on earth to equal its beauty!"

Yet somehow England and its chief town, in spite of a lack of capacity for advertising, seem to be fairly well-known abroad. Consider London just recently.

It was packed with distinguished visitors. They ranged from the King of Spain, Prince Damrong, of Siam, and Prince Danilo, of Montenegro, to the newspaper editors of the Empire, the latest tennis celebrity and the newest contestant for the Henley regatta.

They come from all parts of the earth. The secret of it, of course, is that nowhere can you find such a round of scenery to a military tradition, and amusement packed into a few short months as you find in Britain during the "season."

You can have everything from grand opera to yachting, from the Royal Academy to a military tradition, from a court levee or drawing-room to a golf championship, from a regatta to a flower show. There is hardly a day when some function or other event does not help to fill the social diary.

Naturally, it costs a great deal to share in these delights. You can spend from \$50 to \$150 a day at a luxury hotel in London. And if you want a fashionable flat to live in the centre of things you can hand out \$500 a week to your landlord who will think he is obtaining only his just dues.

Should you be in the millionaire class, you can live even more expensively. You can take a furnished house in the West End. It will be the last word in style and comfort—all ready to walk into. A thousand dollars a week is not considered at all exorbitant for such a temporary shelter.

Active At Old Age

Budapest Cabman Is Still Persuing Occupation At The Age Of 80

When should a man retire from active life, and how should he do it? A Budapest cabman thought that about 80 was a good age at which to stop work, but determined to do it "his way." He drove his cab all over the continent, and attracted a good deal of attention by calling it "not altogether correctly—the last horse cab in Europe. Then, on his return, he presented the cab to the Budapest Museum. But he wasn't allowed to retire. The municipal authorities were so impressed by his adventurous spirit that they presented him with a taxi-cab. And now, though he is over 80, he is touring Europe once more—this time in the taxi. Old men are certainly more enterprising than "graybeards" used to be. Eastern Europe seems to specialize in these adventurous oldsters.

Oriental Poppy

New Bloom Is Developed By Resident Of Duncan, B.C.

An Oriental poppy, developed from a seedling by E. W. Neel, of Duncan, B.C., has been given an award of merit by the Royal Horticultural Society, and assigned the name "Covachian" after the district in which it originated. The large blooms grow from 10 to 11 inches across on stalks over 4 feet 6 inches. The color of the flower is dark red. The seedling appeared voluntarily in Mr. Neel's garden, and he developed it.

U.S. Cost Of Living

The United States Department of Labor, through the bureau of labor statistics, has issued a report on changes in the cost of living in the United States in recent years, which shows a decrease of 2.1 per cent. between June, 1929, and June, 1930. The information given is based on actual prices obtained from merchants and dealers in 32 representative cities.

Radio so far appears to be a failure in India. Atmospheric conditions and lack of interest of a large portion of the people are two reasons, but the principal one is said to be the tax on receiving sets.

New South Wales, Australia, has banned all curb gasoline pumps.

Minard's Lintament for Lumbago and Neuralgia.

WHOLE FAMILY
HAD DYSENTERY

Dysentery is one of the worst forms of bowel complaint and should be checked at once as its termination often proves fatal.

Mrs. H. P. Hawert, Flintshire, Sask., writes:

"Two years ago we were all very bad with attacks of dysentery. My husband got a bottle of Dr. Fowler's Wild Strawberry Syrup and after taking three or four doses we were completely relieved. Since then we have never been without a bottle of it in the house."

On the market for the past 85 years; put up only by The T. Milburn Co. Ltd., Toronto, Ont.

Explore Arctic With Submarine

Sir Hubert Wilkins To Cross Polar Regions By Undersea Passage

Sir Hubert Wilkins, arriving in New York on the North German Lloyd liner "Bremen," announced that he had virtually completed plans for his undersea passage in the North Polar regions, which he will undertake next summer in an obsolete submarine, which will be placed at his disposal by the Navy Department.

He has gone to Philadelphia to examine the discarded submarine O-12, which he plans to rechristen the "Nautilus." In his out-of-date craft, Sir Hubert, with several other scientists and a crew of 18, will explore beneath the ice-choked waters for a period of about 50 days.

Sir Hubert expects to cover some 2,500 miles during this period. The submarine will be equipped with an air-cutting device that will bore a hole upward, when the submarine's super-structure is close to the bottom of the ice floes. He will thus be able to send men to the surface of the water through the ice to conduct experiments and make observations.

The submarine will attain the depths of between three and five knots, when submerged. He expects to leave New York next May in the submarine and proceed to Spitzbergen. From that port he will then begin his undersea studies of currents, etc., and will pass under the North Pole emerging in the ice floes of the Behring Sea.

During the passage beneath the surface of the northern waters, Sir Hubert plans to broadcast daily with a special radio set. The submarine is 175 feet in length. Among those who will accompany the explorer on his Polar voyage will be Dr. H. V. Sverdrup, who accompanied Amundsen on several expeditions, and Dr. Beining Meinder.

Checked For Ate. Some little irritation, because of the breathing tubes, others gather, and the awful choking of asthma results. Nothing quite so quick and positive relief as Dr. J. D. Kellogg's Asthma Remedy. The healing, soothing smoke or vapor penetrates, clears the passages and gives untold relief. It has behind it years of success. It is the sure remedy for every sufferer.

Increased Wheat Consumption

Strong Tendency Of Tropical Countries To Use More Flour

A report issued by the Ford Research Institute, of Stanford University, California, shows a strong tendency towards increased wheat consumption on the part of tropical countries. The survey covers the years from 1909 to 1927, and reveals a growth in the consumption of wheat flour in excess of the growth of population; the years from 1909 to 1913 showing an annual average per capita use of 12.4 pounds of flour while the period from 1923 to 1927 shows a rise to 12.67 per cent.

Keeping World Supplied With Paper

The forests of Canada continue to be the chief source of the world's paper supply. During June, Canadian paper was exported to 33 countries, ranging alphabetically from Australia to Uruguay.

On a London fire range a woman, who had never handled a rifle before, hit the bull's-eye with fourteen of her fifteen shots. It is not known what she was aiming at.

Toronto is to have a seamless-tube mill costing \$2,000,000.

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. This quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has the standard with physicians in the 50 years since its invention. One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

A Valuable Stamp

One Cent Stamp Issued Many Years Ago Now Worth \$40,000

Probably the most classic example of the economic law that scarcity creates value is an exhibition in Boston, Mass.—a one cent stamp worth \$40,000.

It is the property of Arthur Hind, Utica, N.Y., manufacturer, of stamps arrived and the maker's name was \$500,000 collection of stamps constitutes, financially speaking, just about half of the National Philatelic exhibition of 1930, which was opened at Horticultural Hall, in Boston, Mass. The history of the stamp goes back to 1866, and to British Guiana. The postmaster of that then isolated colony had found his supply of stamps exhausted. In the emergency a local printer called in to conference, and with the aid of a picture of a ship, borrowed from a local newspaper, and a hand-set inscription, the stamp was turned out.

A few days later the regular supply arrived and the makeshift was destroyed. Sixty years later, the only known copy came into the possession of Hind for \$32,000, and today collectors say it is worth at least \$40,000.

Little Helps For This Week

"Let thine heart keep my commandments."—Proverbs III, 1.

Rabbi Jehoshua had the skill to know that heaven is in God's will! And doing that, though for a space! One heart-beat long, may win a grace! As full of grace as that of glow! As princes of the chariot know.

God would have us live; if we live we cannot but know, while all the knowledge in the universe cannot make us live. Obedience is the road to all things. It is the only way to grow able to trust Him. Love and faith and obedience are the same path. —George MacDonald.

Hittite Castle Door

The Chicago Oriental Institute Makes Interesting Discovery

The Chicago Oriental Institute expedition, excavating at Alalakh, has discovered a large Hittite castle door ornamented with bas-reliefs representing deer. The door has been transferred to the American Museum.

Road builders in Scania recently uncovered a chiseled stone, which aroused the curiosity of a highway engineer. He continued the digging and found Byzantine vessels and pieces of money, apparently deliberately buried beneath the rock, which may mark a treasure trove.

Persian Balm — the one toilet requisite for the dainty woman. Delightful to use. Leaves no stickiness. Swiftly absorbed by the tissues. Delicately fragrant. Imparts a velvety loveliness to the complexion. Tones up the skin. Soothes and banishes all unpleasant roughness or chafing caused by wind and other weather conditions. Makes hands soft and white. Creates an elusive, essentially feminine charm. Persian Balm is indispensable to women of refinement.

Historical note: When Lincoln was elected to Congress from Illinois his campaign expenses, paid by his party, were 75 cents.

Toronto is to have a seamless-tube mill costing \$2,000,000.

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, when you learn how quickly, how pleasantly this premier method acts. Please let us show you—now. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

BRIGADIER MERRITT IN COLEMAN SATURDAY

Brigadier John Merritt, who has seen almost half a century in the ranks of The Salvation Army in Canada and who at present is touring western Canada, will arrive in Coleman at 10:11 p.m. Friday, August 29th.

The Brigadier has served in both eastern and western Canada, and has just recently retired from active service. He has held several important positions on the headquarters staff at Winnipeg, besides two years as chief staff officer for the Territorial Training Garrison.

The Brigadier will be conducting a public meeting on Saturday, August 30th, at 8 p.m., at The Salvation Army, Coleman. Friends and comrades are invited to attend. A worthwhile message will be given to all from the book of experience of the years of service represented by the Brigadier.

Frank Johnson returned Sunday evening from an extended holiday spent at coast points.

Mrs. George Brown was confined to her home through illness for a few days last week.

M. Hamilton, Rev. Young and Mrs. Evan Morgan, accompanied by their families, were picnickers at Waterton Lakes on Tuesday.

Mr. Drake, principal of the Frank school, accompanied by Mrs. Drake and family, returned the early part of the week after holidaying at Sylvan Lake and other Alberta points.

Mr. and Mrs. J. A. McDonald, of the Empire hotel, Coleman; Mr. C. J. Tompkins, of Blairmore, and Dr. and Mrs. T. McKinnon, of Antelope, Nov. Scotia, motored to Banff and Lake Louise, returning via the Windermere highway.

Edward Webster, 53, a miner at Coal Creek, is believed to have drowned himself in the Elk river near Fernie on Tuesday. Although the body has not yet been recovered, police discovered Webster's hat and coat on the river bank.

At Hillcrest on Saturday last Lethbridge defeated Hillcrest in football by a score of 2-0, regaining possession of the Scott challenge cup which they lost to the Hillcrest aggregation three weeks prior. Hillcrest will journey to Lethbridge on Saturday to again play for the trophy.

Albert Krywolt is still busy decorating his hotel at Frank. Recently, the entire interior was treated to such an extent that it has become one of the most attractive and comfortable looking in the district. Attention is now being paid to the exterior.

The big trout in the river are beginning to divide their patronage among the fishermen, and many Waltonians are reporting some great hauls. Percy Unsworth took a nineteen-inch trout the other day from a modest little pool not far up the river—High River Times.

Following are the new officers of the Blairmore Legion, B.E.S.L.: G. A. Vissac, honorary president; J. Angus McDonald, president; M. G. Rhynas, first vice-president; J. W. Whitbread, second vice-president; John Patterson, Albert Desjardins, Rhamer Comfort, Sam Patterson and H. H. Griesbach, executive. George Patterson received the appointment as club steward, and Corl J. J. Weaver secretary-treasurer.

BELLEVUE FLOWER SHOW, SPORTS AND CARNIVAL

On Labor Day, Monday, September 1st, the Bellevue and District Horticultural, Industrial and Poultry Society will stage their 13th annual flower show and exhibition of vegetables, poultry, handiwork, domestic science, etc., and the spacious Bellevue arena, which is used each year, will be taxed to capacity as usual to display the various exhibits.

The arena will be opened promptly at 1 p.m. to visitors and owing to the trade depression prevalent in the district this year, the admission price has been reduced to 25 cents in addition to the exhibition, the society are staging a grand carnival also in the arena, on the nights of Monday and Tuesday, when all the fun of the fair will be provided, dancing can be indulged in and the drawing for the major prizes—chesterfield suite and lamp, orthophonic gramophone, and lady's and gent's golf watches—will take place on Tuesday evening.

Outdoor attractions will be staged on the sports field and will include the fifth annual 5-mile road race for seniors and the 2 1/2-mile junior road race. A list of all sport events and prizes follows:

Children's Parade from the School House to Sports Field at 10 a.m. for Children's Races

5th Annual 5-Mile Road Race, at 12.30

(Five entries necessary before Three Prizes can be awarded)

Tuesday, Sept. 2, 6 p.m., Junior Baseball

First Prize, Value \$18.00; Second Prize, Value \$9.00

M. Kybik, junior, leaves tonight for Chicago to take a commercial course.

Mr. T. M. Burnett is back in Cadomin after a world tour with Major Burnett, of Lethbridge, his father—Edison-Jasper Signal.

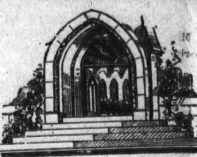

Davie Kemp, Jackie Oakes and Idria Evans intend taking in the highland gathering, Scottish musical festival and sports at Banff on Saturday.

Mr. and Mrs. A. E. Cox and family left the early part of the week on an extended trip down the Pacific coast and will visit with Mr. Cox's brother at Los Angeles before returning. He is being relieved as operator at the local station by Mr. Gordon McIntyre, of Bellevue.

Get your printing done in your home town. The Enterprise is here to do your rush, last-minute job and is at your command day in and day out—an established and valuable local institution. If you appreciate a printing plant and newspaper in your midst, don't buy your printing requirements from outside companies.

A former Albertan, F. L. Hammond, son-in-law of Major W. B. Burnett, of Lethbridge, has entered the newspaper field in Great Britain, having purchased recently the Fortnightly Review and the Review of Reviews. The latter magazine was founded by the W. T. Stead, who lost his life when the Titanic went down. Mr. Hammond is now in Alberta.

Mr. and Mrs. Askaker and Miss Mary Corrigan were seen along the C.N.R. promenade, enjoying the glorious foliage. Pete says the world cannot beat it. Gwyn Evans was elected as check-weighman and secretary for the local Union last Sunday; G. Webb, president; J. Duchak, vice-president. Mr. Evans will also represent this local at the next convention. —Saunders Creek Notes in Red Deer Advocate.

BERLIN BEGGARS ORGANIZE

BERLIN, Aug. 26.—To what extent the underworld is organized in the German metropolis may be judged from the Beggars' Bazaar and kindred institutions for the brotherhood of alms seekers in the city's slums and elsewhere. The Bazaar is known only to the initiated and accessible through a small and dingy public house which is the nightly rendezvous for the poorer elements—workmen and unemployed, with a plentiful sprinkling of shady characters—all drinking beer and talking at once but always suspiciously sizing up every newcomer.

Ever and anon a beggar arrives and with cat-like agility squirms through the motley crowd to a trapdoor leading to the "sandwich bourse." Here mendicants representing every conceivable type of suffering sell to the hungry unemployed the bread and sandwiches doled out to them during the day by kindhearted housewives. Quotations vary with different seasons, the colder weather seeing a boom in the proverbial crust of bread. Dry bread is quoted at an average of 2 pfennigs, a slice of bread with jam at 4 pfennigs, with liver sausage at 6 pfennigs, with Swiss cheese at 12 pfennigs and with ordinary sausage only at 8 pfennigs.

In the slums of the city's northern section there is also a beggars' livery, doing a thriving business especially in the early hours, the rich becoming so great by 9 a.m. that newcomers have to wait their turn in a queue. Here mendicants for a daily fee or a monthly subscription are speedily equipped with all the appurtenances for their calling, ranging from hand-organs and lead dogs for the blind, to searless shoes and "ruteshes."

In an obscure street of the fashionable west end, on the other hand, is located the well organized beggars' information bureau, which limping specimens of human misery enter to lay aside their crutches, in which the blind suddenly are able to see and the deaf and dumb start swearing. Here the beginners in the fraternity purchase orderly kept lists of addresses of residents considered easy marks.

From a weekly newspaper: "Owing to the over-crowded condition of our columns, a number of births and deaths are unavoidably postponed till next week."

We are in receipt of a card from Mr. J. R. Smith, who with Mrs. Smith is enjoying a holiday over in England. Speaking of the reported excessive heat throughout Canada, Mr. Smith states that it is cool and showery every day over there. Ah, let's go over!

The total production of maple syrup in Canada during 1930 was 2,185,379 gallons, valued at \$3,869,107, and 8,208,276 pounds of maple sugar, valued at \$1,381,513. The average market price of syrup was \$1.77 per gallon, and of sugar 17 cents per pound.

IT'S WISE TO **CHEVROLET** CHOOSE A SIX

A Truly Modern Car You Will be Proud to Own

It is wise to choose a Chevrolet Six—because this is definitely a better low-priced automobile. Priced as low as \$635 at the factory, it is more modern—in design, performance, appearance and features—than any other car in its field. It is a car to be proud of, wherever you go.

More than two million owners have found that Chevrolet's modern six-cylinder design means more enjoyable motoring. That six-cylinder power is always smooth and flexible. That six-cylinder speeds are always quiet and comfortable. That "Body by Fisher" means infinitely smarter appearance

and finer construction. And that six-cylinder performance, as Chevrolet provides it, is just as economical as any other kind!

In selecting a low-priced car, you should also consider this fact—Because the Chevrolet Six is so far ahead of its field today, it will be modern tomorrow—and command a better resale value when you come to trade it in. Come in today. We will give you a demonstration gladly and tell you about the General Motors Owner Service Policy, the most complete in the industry... and the G.M.A.C., General Motors' own deferred payment plan.

\$635

Prices at factory, Oshawa, Ont. Tax, license and spare tire extra. A complete line of Commercial Cars and Trucks from \$485 up.

COWLEY HAPPENINGS

Austin Brownie, of Calgary, spent Sunday in town.

Mrs. Byres has been hired to teach the senior room of the Cowley school.

Mr. and Mrs. Harry Gunn and family moved to Macleod on Wednesday.

Harvest home services will be held in the United church here on Sunday evening at 7.30.

Miss Gladys Brown, of Pincher Creek, paid a visit to the Misses Morrison this week.

Mr. and Mrs. W. F. Blackburn and family, of Fishburn, were visitors to Cowley on Sunday.

Mr. Penn, station agent at Lundbreck, is now on a two weeks' holiday trip to Vancouver.

Several people in the district are on the sick list, a result of the long continued hot weather.

Miss Jean Morrison has returned home from Edmonton where she spent the summer vacation.

Mrs. Niven, of Lethbridge, who has been visiting with Mr. and Mrs. Archie Swart and family, has returned home.

Miss Flora Love, of Calgary, returned home on Saturday from a few days visit with Misses Barbara and Clara Bundy.

Wilfred Hewitt is now recovering from an operation of appendicitis, a patient in the Saint Vincent hospital, Pincher Creek.

A large elk was seen capering around the horses on Friday in Mr. King's pasture, which adjoins Richard Coast's ranch. In reaching there, it had followed along the upland above the river, across from A. J. Snyder's place.

Several of the Cowley horticultural enthusiasts have surprisingly pretty gardens this season, with some of them attracting the cunning rufous hummingbirds and the hummingbird moths, a species of which every one is not familiar with.

A garden party in honor of Miss Sylvia Blackburn was staged at the home of Mr. and Mrs. M. A. Murphy on Thursday evening. Besides the guest of honor, among those present were: Misses Edith Keve, Barbara and Clara Bundy, Flora Love, Rosalie Perreault, Muri Smyth, Edith and Sylvia Murphy, Marion Morris, Masters Gordon Swart and Lloyd Morrison.

Dave Parry is lying in the Saint Vincent hospital, Encher Creek, in a serious condition. While running a binder alone in a distant field on his ranch in the North Fork country, his team took fright and ran away. Leaving the machine in gear, he climbed from the seat and got to the heads of the horses, when he was thrown to the ground and badly trampled underfoot. Then the binder ran over him, cutting several large gashes in his legs and body. He lay mangled in the field for two hours as he was without aid. When the noon hour came he was missed and searchers found him about one o'clock in an exhausted condition from loss of blood. Blood poison is feared as the wounds were dirty. For the condition he is in and the ordeal he went through he is progressing as well as could be expected.

TO MEET LOSSES

WITH OWN FUNDS

CALGARY, Aug. 26.—The firm of G. F. Tull and Ardern is insolvent to the approximate extent of \$150,000, but both Mr. Tull and Mr. Ardern have announced their intentions to devote their personal resources in effecting settlements which will be to the satisfaction of the firm's customers. This announcement was made by A. L. Smith, K.C., solicitor for the London and Western General Trust company, official custodian of the affairs of the bankrupt company.

COMMUNICATION

Blairmore, Alta., Aug. 26, 1930. The Editor, Blairmore Enterprise.

When are the City Fathers, the Board of Hrade, and other powers that be in the Town of Blairmore, going to waken up to the fact that flying is now a well established business?

Airplane authorities are constantly looking over the prospects for landing fields, hangars, etc., and in the Crow's Nest Pass we have yet only one possible landing field.

From latest information the present field west of Coleman is too small for planes other than those of the "Moth" variety. Incidentally this field is approximately two miles west of Coleman, and the new suggested field for larger planes is still another two miles west again, making a landing there a very disagreeable affair for those involved; necessitating a long walk or a pickup ride before the flyers can obtain any accommodation.

Blairmore has a natural landing field right at its door which could be put in shape with very little expense; west of the Blairmore Arena and running along the south side of the railway tracks is a strip of land long enough and wide enough to make an ideal landing field.

With the prevailing winds in this section of the Pass either easterly or westerly it is understood that a long narrow field is all that is required, a square field only being necessary when all four winds have to be considered.

There are many other conveniences which should be considered on behalf of the flyers who find it necessary to land, and a look around the suggested site is Blairmore will reveal that gasoline warehouses, hotels, restaurants, garages, customs office, telephone exchange, telegraph office, railway station, and even the liquor vendor are all within two hundred yards of the field.

One other important item which could be considered is the opening of the west end of the arena with folding doors, thereby providing a ready built hangar for those who require this service.

The only work necessary on the suggested field would be a small amount of filling together with some levelling, the best power line which crosses the west end of the field near the Sunburst mine would be as possible danger to planes taking off into a west wind, but this could easily be eliminated by having the lines placed under ground.

Waken up Blairmore and show the people of the Crow that we are just as progressive as ever; have not always been to the fore in matters of progress before, so why should we lie down now and let other towns get ahead of us?

Let the local authorities look well over this suggestion, and then see if we cannot get some action; PUT BLAIRMORE ON THE AIR MAP. We may not be air-minded, but we cannot tell if there days of scientific progress what the future holds in store.

Thanking you Mr. Editor for your valuable space.

Yours for an up-to-date Town.

A RESIDENT RATEPAYER

LARGEST KEEL EVER

CAST IN NOVA SCOTIA

The largest keel ever cast in Nova Scotia was turned out at Shelburne, located on the lines of the Canadian National Railway. It is of lead, was cast in one piece and weighs 30 tons. The keel is for an 85-foot yacht, under construction at the yards of the Eastern Shipbuilding Corporation for Clarence Pastley, of San Francisco, Cal., and is to be used principally for cruising in the South Pacific. There is a possibility that the yacht will be entered in the trans-Atlantic race next summer, from New York to England. The vessel, which is being constructed to the designs of Messrs. Burgess and Morgan, of New York, will be powered with an auxiliary oil engine.

CCREIN HAPPENINGS

Miss Eva Baird, of Michel, was a Corbin visitor on Friday.

Constable and Mrs. Dorie left on their annual holiday this week.

Mr. and Mrs. M. Gibson have had Mr. H. Brett, of Calgary, as their guest this week.

Mr. and Mrs. Cyril Shaw and daughter Joan have returned from an extensive motor trip into Alberta.

Mr. and Mrs. A. M. Connelly, of Lundbreck, Alberta, were the weekend guests of Mr. and Mrs. Lionel V. M. Peel.

On Monday evening a minstrel entertainment was given in the Club Hall. All those who patronized the show were rewarded by a short hour of dancing to very peppy music.

Mr. and Mrs. M. Joyee and sons Charley and Jimmy have returned from a motor trip. They toured all along the western coast then down to Seattle and Spokane, before returning homeward.

Local industrious citizens have been picking quantities of wild berries within the past few weeks. Several people have motored to Hosmer and zealously climbed the mountain for huckleberries.

Mr. and Mrs. W. Tucker were Taber visitors on Monday last. On Saturday they motored to Kimberley to bid several friends good-bye before leaving this district. Mr. Tucker has been transferred to the Taber branch of Burns & Co.

Baseball has been so thoroughly enjoyed by both players and fans during the past summer, that the boys are going to get together on Tuesday evening for the purpose of forming a hockey club. They will flood the present tennis courts on the hotel lawn, and use them for a rink. Here's wishing them every success in their undertaking.

On Friday evening a very successful impromptu dance was held in the Club Hall. Local ladies donated cake and sandwiches and several gifted musicians furnished very excellent music. Several couples from both Michel and Coleman heard about the dance and came to swell the crowd. A silver collection was taken up in aid of the hockey club.

"JOURNEY'S END" HAS

MOVED MILLIONS

Simple story of ten men in British officer's dugout, facing certain death and each in his own way waiting for the end, tears at heart strings.

"Journey's End," the war play that had played around the world before it was a year old, and that raised an obscure author to fame, defies the biggest dramatic convention by not having a woman in it or a love story—and yet it is crammed with a vital love interest.

In the Tiffany all-d'ologue production of this R. C. Sheriff masterpiece, coming next week end to the Bellevue theatre, a key of romance is struck when Lieut. Osborne, gray-haired and three years in war service, tells Lieut. Raleigh, young and just arrived in the front line trench, to "think of it all as romantic—it helps."

Tamar Lane says: "It is with keen pleasure that I announce the arrival of a truly great talking picture—'Journey's End'—stands out as a brilliant gem which is destined easily to win a place among the best pictures of the year. If I am not mistaken many will even go so far as to rate this Tiffany production one of the finest in recent years."

The job of transferring the Sheriffs play onto celluloid has been done with rare understanding. None of the values of the original work have been lost, in fact, the footlight version has been enhanced in many respects, due to the greater latitude of the cinema.—N.Y. Herald Tribune.

Chautauque guarantors at Clearholm were faced with a deficit.

Planning, Saving, Investing

"To have AND to hold," when applied to money, does not seem to be an easy lesson for most people to learn. The word "and" is stressed because during the recent stock market slump there have been millions who have failed to do the "holding." They have emerged as losers. They have allowed the lure of speculation to divert their time and attention from their regular occupations and interests to a field of activity about which they knew next to nothing. So it seems that most of us need to concentrate more on the "holding" part of our financial plan.

So writes Leroy D. Peavey, president of the well known Babson's Statistical Organization, who from an income-producing point of view divides the average individual's life into roughly three parts. The first, from about age twenty to age thirty, might be called the period of preparation or getting settled. The second, from thirty to the late fifties, is the period of accumulation. The third, from the late fifties on, is the age of retirement or at least of lessened earning power.

No matter how much time and money may be expended during the teens and twenties in preparing young people for their life work, they can never, says Mr. Peavey, be independent during the last period of life unless they have made good use of those twenty-five or more golden years in the second period. It is during this period of accumulation that one's surplus must be built up and judiciously invested if one hopes to be independent the rest of his days. His watchwords should be Plan, Save and Invest.

Planning means the making and using of a budget. The budget is the floor-plan of your financial structure. Fit it to your own situation and then stick to it, instead of shelling it after a couple of trials. Of what good are blue prints if the structure does not grow up in accordance with their specifications? And one of these specifications will be the proportion—whatever it may be—of your income that is to be set aside as savings. Another specification will be the determination to have a home of your own some day—one that eventually will be free and clear. Because it is free of mortgages or other claims, it will stand between your family and distress. Life insurance and other sound investments should likewise be included.

The second watchword, "Saving," has been brought to the consciousness of the people of this generation by many years of educational effort. It has been adopted by hundreds of thousands of Canadians as evidenced by savings accounts in post offices and banks. It was given a great impetus during the war when, through the urge of patriotism and in response to the call to sacrifice to "win the war," thousands of people who never before had invested in a bond bought Victory Bonds, and thus learned the lesson of how easy it is for money to accumulate and multiply itself through interest payments. But the lesson of saving is one that must be taught to each successive generation, and there should be no slackening in the effort. It is a lesson that all parents should teach their children to learn early in life and continually practice, until the savings habit is formed.

When it comes to "Investing," you have the challenge between invoking the almost unbelievable power of compound interest when harnessed to regular monthly savings, on one hand; on the other, putting the money into well seasoned securities. In the first case you need no particular advice, for in its operation compound interest is both tireless and automatic. In the second instance, that is, with investment securities, you need advice of the most discriminating sort. This fortunately, you can easily obtain from your own banker.

You will want to have among your investments some good sound bonds anyway, and then if your available funds permit some of the best stocks. The latter should be bought outright and never on a short-term basis. Remember this, too. It is wise to keep a part of your funds in liquid form,—that is, in cash or such short-term securities as can quickly be converted into cash. Then you will be prepared for emergencies. You might need this money for a personal emergency, or for some special investment bargain in the market that had come to your attention.

The point is to put each spare dollar to work, twenty-four hours a day and each day in the year, earning more income for you. Your ability to "spare" these dollars for such a proposition will lead to a surprising increase in your "sparing" power; that is your ability to save. You will be able to see with your own eyes the rising structure of financial independence that is going to stand you in such good stead later in life. But in order that your future income may be ready when you need it, start to build that income NOW.

The word "investment" should be broadly interpreted to include not only bank accounts and securities, but insurance policies, your own home, real estate, mortgages, and other forms of capital. Life insurance is indeed important. It not only helps people to save, but it is a protection as well as an investment. Every person should carry life insurance, but, on the other hand, it is not the part of wisdom to place all your earnings in life insurance. Follow instead the practice of diversifying your investments—part in a savings account, part in life insurance, and part in sound securities.

However, this advice about investing is almost useless if it is to be only a temporary effort, or if you allow your investments to be frittered away through carelessness or the greed for more. Rather turn to the fundamental sources of assured income.

And, above all, turn to hard work, initiative and perseverance, as the right means of accumulating sufficient funds for your needs, rather than the purely speculative stock market in the hope of getting something for nothing. Lastly, carry out the principle that "godliness with contentment is great gain," in your finances as well as in the rest of your life.

What's-Fool Membership

The Canadian Wheat Pool now has a membership of 145,000, the number of members having been increased by more than 2,000 within the year, according to Gilles Percell, of the Canadian Press.

Have Minard's Liniment on your shelf

Huge Power Projects

Millions To Be Spent In Next Three Years On Hydro Development
More than \$100,000,000 will be spent in each of the next three years on power projects now under development in Canada. Although there are other plans for important building projects, none will have a more intimate bearing upon the industrial development of Canada than those now contemplated by the power industry.

The present turbine installation in the Dominion averages 583 horsepower per thousand of population, a figure which places Canada among the leading countries of the world in per capita utilization of water-power. The total installation now amounts to over 5,700,000 horsepower and an additional installation of over 3,000,000 horsepower will probably be made within the next five years. Quebec has the largest installation with an average of nearly one horsepower per person. Ontario has a total installation of nearly two million horsepower, and in 1929, the power companies in that province generated over six billion kilowatt hours, or more than one-third of the total produced in the Dominion. Manitoba has an installation of over 300,000 horsepower, and Alberta, 70,000 horsepower. On the Pacific coast, large resources are available and turbines with a capacity of 560,000 horsepower have been installed in British Columbia.

Good News For Students

Would Curtail Homework and Examinations For Vancouver High Schools

Curtailment of home work and abolition of examinations for Vancouver high schools is being considered by educationalists here this summer with a view to lightening school work for children and, at the same time, increase the efficiency of study.

With the inauguration of the new four year high school matriculation course at the commencement of the fall term, home work will be cut in half. It is declared by principals of several high schools.

Resentment against home work which has been sweeping the country in the past few weeks is steadily increasing, both among parents and teachers who declare that the old fashioned idea of giving children enough work to keep them out of mischief is not raising the standard of education. "With science investigating every branch of life for the purpose of simplifying living conditions, education, it is claimed, has stood almost still in spite of the efforts of psychology experts.

Recipes For This Week

(By Betty Barclay)

GINGER BREAD

- 2 cups sugar.
- 1 cup butter.
- 1 cup molasses.
- 4 eggs.
- 1 1/2 cups flour.
- 1 1/2 tablespoons soda.
- 1 tablespoon ginger.
- 1 tablespoon cinnamon.
- 2 cups sour milk.
- 1 teaspoon salt.

Cream butter and sugar; add well beaten eggs and molasses. Sift dry ingredients together and add alternately with milk. Bake in layer cake pans about 35 minutes in slow oven or about 225 degrees Fahrenheit. Cut in squares and serve with whipped cream.

ORANGE CARMEL

- 6 oranges.
- 1/2 cup sugar.
- 1/2 cup water.
- 1/2 cup cream.
- Pistachio nuts.

Parse oranges, removing membrane with peel, and cut crosswise, in slices. Put sugar and water in a small saucepan, and boil quickly until syrup is a golden brown. Arrange layer of orange slices in glass dish; sprinkle with sugar; pour over enough of the syrup to form a thin coating over the orange; add another layer of orange and syrup; repeat until orange is used. Beat cream until stiff, pile lightly on the orange, and sprinkle with chopped pistachio nuts.

Many infants are infested by worms which cause great suffering, and if not promptly dealt with may cause constitutional weaknesses difficult to remedy. Miller's Worm Powders will clear the stomach and bowels of worms and will set upon the system that there will be no recurrence of the trouble. And not only this, but they will repair the injuries to the organs that worms cause and restore them to soundness.

Military Promotion

Western Officers Appointed To Command Of Regina and Calgary Regiments

Promotion of Major E. R. Knight to the rank of Lieutenant-Colonel, and to command the Calgary Alberta Regiment, was announced recently at the Department of National Defence. It was also made known Lieut.-Col. J. McAra has been appointed to command of the Third Reserve Battalion of the Regina Rifles Regiment.

Both officers have had long service in the Canadian Militia. Lieut.-Col. Knight proceeded to England with the 56th Battalion, C.E.F., in March, 1915. He served in France and Belgium. Lieut.-Col. McAra went overseas with the 38th Battalion, in May of 1915. His service also was in France and Belgium.

Pioneer Mountie Dies

Peter O'Hare, 77, pioneer mounted policeman of the west, died recently at Maple Creek. Since the earliest days of the police in Saskatchewan Mr. O'Hare was associated with all activities, taking part in the Riel Rebellion engagement. His service extended over 40 years.

Crude Oil Consumption

At present only about 2 1/2 per cent. of our crude oil consumption is produced in Canada.

Trans-Atlantic telephone service has been extended in Sweden, so that it is possible to talk to people within the Arctic Circle.

Minard's Liniment removes Warts, relieves Bunions.

ENO'S FRUIT SALT

Doctors Warn Against Drastic Purgatives

Physicians know the danger of using cheap cathartics that create a harsh, unnatural intestinal activity. They know that ENO'S "Fruit Salt" is more than a laxative. It is a delicious health beverage that sweetens and tones up the entire system—and that its daily use—just a dash in a glass of water, every morning—is an aid to vigorous good health.

Report On Gas Fields

Member Of Geological Survey Of Canada To Make Report On Saskatchewan

Dr. G. S. Hume, of the Geological Survey, Canada, will make an immediate survey from all available data, of the prospects of finding gas in Saskatchewan, in suitable quantities within the province.

He will not make any actual investigation in the field at the present time, but having visited each city interested in gas development and gathered material from other sources will make a report based on geological information already obtained by various survey parties.

This report, inasmuch as it affects the various cities interested, will be submitted to the Dominion Government, which in turn will forward it to the provincial government. The joint committee, representative of four cities of Saskatchewan interested in the gas question, will then be put in possession of all the facts obtained.

This was the outcome of a conference held at the parliament buildings, at Regina, when Dr. Hume met five members of the Saskatchewan Government and also of the four-city gas committee.

Soft corners and warts are ugly, painful and irritating. Remove them quickly and surely with Douglas' Egyptian Liniment.

Encourage Sheep Industry

Economic Survey Of Sheep Ranches Of Western Provinces To Be Undertaken

An economic survey of sheep ranching in Saskatchewan, Alberta and British Columbia, is being undertaken by the Dominion Department of Agriculture, under the direction of the agricultural economics branch in co-operation with the Dominion Experimental Farms. This is the beginning of a programme of research work in agricultural economics on behalf of the livestock industry.

The Yungas Railway, of Bolivia, is erecting steel telegraph poles.

No Cause For Alarm

Says Russia Will Not Be Factor In Wheat Exportation For Some Time

Thomas D. Campbell, of Hardin, Mont., who has been called the world's largest wheat grower, returned recently from a trip to Russia as agricultural consultant to the Soviet, and announced that it would be longer than alarmists thought before Russia was a factor in any export field.

As the country's five-year program progresses, he said, the needs of the country also increase. The more she grows the more she consumes. "It will be at least three years before the Soviet government is a factor in the export of grain or any other commodity. Very soon the internal needs of the country will call for 1,000,000,000 bushels of wheat annually, just as an example.

A Corrector Of Pulmonary Troubles.—Many testimonials could be presented showing the great efficacy of Dr. Thomas' Electric Oil in correcting disorders of the respiratory processes, but the best testimonial is experience and the Oil is recommended to all who suffer from these disorders with the certainty that they will find relief. It will allay inflammation in the bronchial tubes.

Honey has become so popular in the British Isles that while 150 tons were produced there in the last 12 months, fully 3,500 tons, valued at \$2,000,000, were imported.

The United States exported 25,707,854 tons of false teeth last year.

ARMY OF MEN OUT OF WORK EAST AND WEST

Ottawa, Ont.—In 84 centres which have replied to the query of Hon. G. D. Robertson, Minister of Labor, on unemployment figures there are 112,904 people out of work in Canada, and it is estimated this number will increase to 150,000 during the winter. Mr. Robertson gave these figures to the Employment Service Council, of Canada, at the opening of the annual meeting.

The figures, he pointed out, did not include 14 or 15 centres which had not reported, or the number who were out of work in numerous small centres throughout the country, and in rural areas.

Senator Robertson said he considered the figures received a conservative estimate. It was not unreasonable to say, he added, that there were now 200,000 people out of work in Canada. Figures compiled on August 15, he stated, showed that out of 208,597 union men in Canada, 26,796, or 12.8 per cent, were out of work.

The Government of Canada does not propose to adopt paternalism as a policy in dealing with unemployment but it does propose to help the people to help themselves, Senator Robertson declared.

"I do not for one moment suggest," he said, "that the present unemployment is due to any government or lack of governmental activity. Unemployment is not a purely Canadian problem. It is world-wide. But it is not the business of the government of Canada to look after the world as a whole. It seems to me the problem first to be faced is for the government to look after the people of Canada and assist them to look after themselves."

"A proposal has just been made to me that if the federal grant to technical education were restored it would be a great boon to the unemployed. I do not know what the government will do because the matter has not been considered. But I do know it would at least enable the unemployed man to improve his skill during the time he is out of work."

"I feel, however, that if the technical education plan as inaugurated some years ago had been carried out to the full there would not be so much unemployment today."

To the cause of unemployment the government, referred to the development of labor-saving machinery, particularly in the west. Then there was the question of immigration. Feeling that it was its duty to see that the people of Canada had employment before inviting others to come in the government had taken steps to restrict immigration.

A special session of parliament was being called to deal with the situation. The government proposed to pass legislation compelling it to invite the co-operation of the provincial and municipal authorities and the co-operation of employers and of labor with a view to providing all the employment possible, as quickly as it could be done.

Daughter Born To Duchess

Birth Of Daughter To Duchess Of York At Glamis Castle

Glamis, Scotland.—The birth of a daughter to the Duchess of York was announced at Glamis Castle, the home of her parents.

The royal mother and the little princess are making highly satisfactory progress, according to an official bulletin from the gray old castle.

News of the birth was immediately flashed by telegram to King George and Queen Mary, who are staying at their Norfolk estate of Sandringham.

The baby is the fourth grandchild of the King and Queen. The others are Princess Elizabeth and the two sons of Princess Mary, Countess of Harewood.

John R. Clynes, home secretary of the Labor Government, officially attended the royal birth. He and H. R. Boyd, ceremonial secretary to the home office, were both at the castle to attend the birth.

Nurse Bevoers, who attended the Duchess and Princess Elizabeth, was with Her Highness. Dr. David Miles, who with Sir Henry Simons, noted London obstetrician, assisted at the birth, has attended the duchess since her childhood.

New Gold Discovery

Hudson, Ont.—A new gold discovery is reported from the district 40 miles west of Red Lake near the Manitoba boundary, and a mining report has left for the locality to investigate.

W. N. U. 1823

Salvage Abandoned Planes

Two Planes Of Maple Party Are Recovered After Enduring Storms Of Last Winter

Edmonton, Alberta.—Beating the Arctic again, Canadian fliers and airplanes have triumphed in a far northern test.

The test constituted a drama, in three acts. The first when the Maple party was forced to abandon two monoplanes, forced down by fuel shortages, on lonely Dease Point on the Arctic coast, late last autumn. The second act was while the machines remained frozen on an Arctic winter, enduring storms of whose magnitude none can tell. The final act, just completed, was continued in the salvaging of the machines.

One of the monoplanes was the property of Dominion Explorers, Limited. A little over a week ago supplies of gasoline and oil were taken to the scene of the forced landing. The machine was "gassed up," and flown to Coppermine River, where, without overhaul it was placed in service.

On Thursday evening last, August 14, the second machine, the property of Western Canada Airways, was reached by Pilot Buchanan and his mechanic, and on Monday evening, August 18, the machine landed at McMurtry.

So far as can be seen, the machines suffered no damage through their long stay in the Arctic. Their motors started without difficulty once fuel and oil were provided and there were no visible evidences of deterioration.

The Western Canada Airways machine will undergo a thorough examination at McMurtry to determine if a complete overhaul is necessary.

Canadian Beef For Britain

British Market Offers Great Opportunity For Canada

Montreal.—Canadian beef will enter the British market for the first time since 1923 with the shipment from Montreal this week of 128 head of grade Hereford and Shorthorn steers, bred in Ontario and now consigned to a firm of importers in Manchester.

The majority of the steers were raised on the farms of P. J. Henry, of Ridgeway, Ont., and M. J. Campbell, of Dunn, Ont.

Shippers of livestock believe that the British market, dead for the past few years so far as Canada was concerned, is now open to Canadian breeders according to Donald Munroe, president of D. Munroe and Sons.

One hundred and sixty thousand pounds of dressed beef were shipped from Canada to the United States last year, but for the future such trade is severely hampered by the unfavorable American tariff.

Much of the traffic could, he believes, be diverted to Great Britain. The only competition in the highest grade of beef in the British market comes from the Irish breeders, but it is only seasonal competition and could be met with ease by concentration on the part of Canadian breeders and exporters.

Control Of Immigration

Report Of Royal Saskatchewan Commission On Immigration Has Been Submitted

Saskatoon, Sask.—Main outline of the report of the Royal Saskatchewan Commission on Immigration and Settlement has already been submitted to Premier J. T. M. Anderson, of Saskatchewan, and the full report will be printed immediately on completion, Dr. W. W. Swanson, chairman, announced here.

Findings and recommendations of the commission are expected to be unanimous, the chairman indicated. The commissioners have reached unanimity on all major issues. In view of the urgency of the question both in Ottawa and at Regina, and because of changes already made in immigration laws, everything possible will be done to have the report printed immediately so that it may be made available, through the courtesy of the provincial government, for the information of members of parliament at Ottawa and Regina.

The investigation has been a thorough one. Hearings have been conducted in all parts of the province. Since the commission was appointed last fall about 475 witnesses have been heard and personal investigations have been made by the commissioners.

Plan Relief Work

Toronto, Ont.—Announcement has been made by Hon. William Finlayson, Ontario Minister of Lands and Forests, that the government is completing a scheme of relief work in Northern Ontario to take care of many of the unemployed lumbermen and mill workers who are faced with destitution during the coming winter.

Proposed Health Insurance

Compulsory Form Of State Health Insurance Noted For B.C.

Victoria, B.C.—Legislation calling for a compulsory form of state health insurance will be placed before the B.C. legislature at its next session, according to reports current at the parliament buildings.

Although the royal commission on state health and maternity benefits has not yet completed its labors, which have taken its members to all parts of the province, it is expected that hearings will conclude and a final report will be ready before the session opens. The report will contain comprehensive recommendations to the legislature on which to frame legislation.

To Celebrate Victory

Six Premiers To Attend Conservative Dinner In Toronto

Toronto, Ont.—Six premiers are expected to attend a dinner here in connection with the annual meeting of the Ontario Conservative Association, November 20 and 21.

Hon. R. B. Bennett, Prime Minister of Canada; and Provincial Premiers F. S. Tolmie, British Columbia; J. T. M. Anderson, Saskatchewan; G. S. Harrington, Nova Scotia; J. B. M. Baxter, New Brunswick; and G. Howard Ferguson, Ontario, will be present at what is planned to be a celebration of the party's victory at the recent Dominion election.

SETTLEMENT OF DISPUTES UNDER A WORLD COURT

New York. — Dispatches from Geneva to the New York Times report that the British Labor Government is envisaging an arrangement at the League of Nations assembly session, in September, of its acceptance of the general act for compulsory peaceful settlement of all disputes under the world court.

This step is the outgrowth of signature by all the British dominions of the so-called "optional clause," binding them to accept compulsory jurisdiction of the court. Australia's instrument of ratification to the optional clause, the last of the dominions to do so, was deposited recently.

Rt. Hon. Arthur T. Henderson, foreign secretary, is said already to have opened negotiations with the dominions for simultaneous signature of the general act in September, in the same way that they signed the optional clause last year.

Thirty states, or more than half the league's membership, have now signed the optional clause, but only three have bound themselves by the general act. These are Belgium, Denmark and Norway. The French Chamber of Deputies approved it in June, but the senate has not yet acted.

PROMINENT MARKSMAN

Major Fred Richardson, president of the B.C.R.A., who did some sensational shooting at the rifle meet held at Long Branch, Ont. He was the only man to score a possible, on the 900-yard range, winning the lieutenant-governor's match with 118 points.

Airplane Fatality

Pilot Is Killed Through Falling Into Propeller Blades

Owen Sound, Ont.—Climbing up on top of the plane to adjust the motor, George P. Parsons, 32, Toronto, was instantly killed when he fell into the whirling blades of the propeller. Prominent airman believe it is the first fatality of its kind in the history of Dominion aviation.

Parsons, a member of the Toronto Flying Club, and a pilot in the Great War, had flown an amphibian biplane to Wasaga Beach recently. The machine was the only one of its kind in the Dominion. It is claimed. The engine and propeller are situated overhead.

After considerable tinkering, Parsons was able to start the engine, but in getting down he slipped and fell into the whirling blades of the propeller.

Montreal Bank Robbed

Montreal, Que.—A daring and spectacular hold-up was staged here when two armed bandits held up the four employees of the Banque Provinciale, at 4137 St. Catherine Street, East, and a customer, and escaped with \$2,970 of the bank's funds by commandeering a passing taxicab. In their hurry, however, the bandits overlooked \$5,000 which was on a shelf in the teller's booth.

Elevator Destroyed By Fire

Winnipeg, Man.—Damage estimated at \$75,000 resulted when fire razed the Assiniboine Grain Company elevator, in St. Boniface, across the Red River from Winnipeg. The structure was valued at about \$60,000 and it contained 50,000 bushels of barley, property of Wiley, Low and Company, grain merchants. Insurance covers the damage, it is stated.

THE KING'S DOCTOR

Lord Dawson, of Penn, physician to His Majesty King George V. as sketched by Miss Kathleen Shawton, on board the Canadian Pacific liner "Empress of Australia." Lord Dawson is reputed to have the finest doctor's hands in England, and has the fine features and eyes sometimes recognizable in great artists.

He is looking forward to his first sight of the Rockies and later is going to disappear and take a real holiday out West. A ranch is his ultimate destination.

Yacht Wrecked Off English Coast

Commodore King and Five Others
Lose Lives When Vessel Goes Ashore

Fowey, Cornwall, Eng.—The 22-ton yacht "Islander," wrecked upon the jagged rocks of Lantivet Bay in a violent storm which pounded the English south coast, carried Commodore Henry Douglas King, a prominent member of parliament, and five other men to death up on the numerous rocks of the bay.

Those with Commodore King, who had chartered the "Islander," August 9, for a vacation cruise, were Commander Searle, of Berwick-on-Tweed; Surgeon Captain A. R. Bradley, Dumfries; Captain Glazebrook, of Bishop, Stortford; Harry Lucas, captain of the yacht, and his 17-year-old brother, Walter.

The yacht, which was owned by Lieutenant-Colonel John N. Diggle, had been participating in regattas of the Royal Yacht Squadron along the English south coast. When the boat reached Lantivet Bay, it encountered the storm and piled up on the numerous rocks of the bay.

Great waves punished the craft as it perched on the jagged boulders and it soon went to pieces.

Half a Million For Roads

Quebec, Que.—The sum of \$500,000 was voted by a special order-in-council by the Quebec government at a cabinet meeting for the use of road construction. This sum was added to the regular highway budget of \$12,000,000 and will be used in road building throughout the province, where the unemployment situation is most serious.

Victory Over Reds

Hankow, China.—Chinese press dispatches said Kiangsi provincial troops carried a crushing victory over Communists in the western part of that province, killing 4,000 Reds and capturing 2,000 rifles.

DRIVE ON LABOR PARTY STARTED BY CHURCHILL

Minster, Kent, Eng.—A plea for unification of the Conservative party in an effort to arouse the party's supporters and out what he called "this wretched Socialist Government" was made by Hon. Winston Churchill addressing a meeting here. His speech seemed likely to be taken as the opening gun of a predicted Tory drive to defeat the Labor regime.

Personal and sectional aims should be put aside to avert the decline and fall of the British Empire," he pointed out, of which the former chancellor of the exchequer declared he never would have believed could decline so rapidly as they have done of late.

Mr. Churchill's speech was a warning to the Conservative party to unite in an attack upon the way the MacDonald Government has been handling the Indian situation, particularly the way in which the Fatan tribesmen had come down out of the mountains and were "molesting and insulting a famous city" with a large garrison of British and Indian troops.

"Such a lamentable spectacle would have been responsible in former times," he exclaimed, "It would almost seem that the same spirit of defeatism in high places which is so rapidly throwing India into chaos, has paralyzed military action at Peshawar."

The former chancellor, who referred to Mahatma Gandhi as "this malevolent fanatic," declared that no proposal of dominion status for India would pass even the present House of Commons. While saying this, he re-affirmed the "inflexible resolve of Great Britain to aid the Indian people to tie themselves increasingly to the duties of self-government."

He deplored the exclusion of Sir John Simon, who served on the recent parliamentary commission to India, as chairman for the coming round table conference, and expressed the conviction that the result of this conference would be "confusion worse confounded."

The former chancellor, who has engaged in many verbal duels with Mr. Philip Snowden, the Laborite holder of Great Britain's purse strings, said that he was unhappy about bad trade and unemployment. He put his views of the Conservative program briefly, asserting that the fall of the Labor Government would restore confidence in Britain and would spread from Britain around the world.

"Industry will be stimulated by a tariff," he said. "Agriculture will be aided by a guarantee. The debt will be purged from abuse and imposture and we shall bear out our part in the general revival of national and imperial strength."

NEW ZEALAND RULING DISTURBS AUTO INDUSTRY

Ottawa, Ont.—No official comment is available on the announced decision of New Zealand to place Canadian motor vehicles and accessories on the general tariff list. The matter, it is understood, however, will shortly receive the consideration of the government.

Canada's automobile trade with New Zealand is fairly extensive, and has been growing. The exports of Canadian cars to New Zealand during the fiscal year ended March 31 last, reached a total of 10,349 with a valuation of \$5,506,791. During the same period, parts to the value of \$441,558 went from Canada to New Zealand. The value of automobiles exported by Canada to New Zealand during the preceding fiscal year was \$4,787,504 and parts \$368,473.

With a view to ascertaining just what general tariff it is proposed to apply to Canada, the Department of Trade and Commerce is now communicating with New Zealand. The New Zealand Government has recently changed its tariff, the general rate on foreign cars being increased from 50 per cent. to 95 1/2 per cent. up to \$1,000 in value, and from 42 1/2 per cent. to 48 per cent. over \$1,000. There is some uncertainty as to whether the old or new general rate is applicable to Canadian exports.

Under the former rate, which applied to Canadian motor cars, the tariff, inclusive of "body duty" was 20 per cent. for the first \$1,000 and 30 per cent. on the value over that amount. On July 22, however, this rate was increased to 21 1/2 per cent. up to \$1,000, and 36 1/2 per cent. on the remainder of the value, if any.

The whole question of Canada's trade relations with New Zealand will, it is expected, be canvassed by the government with a view to the negotiation later on of a new direct trade agreement to replace the one which will lapse in October.

Grow Grain At Churchill

Wheat, Oats and Barley Can Be Successfully Grown At Northern Port

The Pas, Man.—Wheat, oats and barley will be successfully grown at Churchill within four or five years, that was the prediction made here recently by D. A. Brown, of the Federal Government Experimental Farm at Brandon, Man., who has just returned from a trip on the Hudson Bay Railway.

Mr. Brown, who is supervisor of demonstration farms in western Canada, declares that Hudson Bay climate is not adverse to grain growing. With proper cultivation and good soil, grain will mature well at the seaboard, he believes.

The official inspection of the plot of grain to be grown at the Hudson Bay port. They did not fare very well, partly due to late sowing and lack of good soil, but Mr. Brown states that the experiment was well worth while. Reward and Garnet wheat attained a height of 18 inches, but it isn't expected to ripen because it was sown late. Alaska oats has made a fair showing, while Trebi barley has a good chance of ripening.

However, garden produce, such as radishes and lettuce, were raised successfully at Churchill this season. Potatoes did not fare well.

W. Wood, of the railway construction department of the C.N.R., was responsible for the grain-growing experiment at the Hudson Bay port. Grains have matured well at several points along the Bay Railway this year, Mr. Brown reports.

Disease Is Spreading

Infantile Paralysis Causing Considerable Alarm In Ontario Centres

Toronto, Ont.—Infantile paralysis, the dread disease now spreading through Ontario, is to be one of the chief topics of discussion at the British Medical Association convention to be held in Winnipeg, Dr. Scott Stevenson, representing the British Medical Journal, stated here.

That the disease is slowly spreading is shown in latest reports from various medical officers of health from different parts of the province. A new case has been reported at Bradford, making a total of 16 there. A young boy, Joe Wightman, Bowmanville, succumbed from the effects of the disease, and there are still four cases in that town.

In the city 22 cases reported up to today, and although all appeared of the mild type, warnings have been issued to citizens to watch closely for symptoms in their children.

Local and General Items

A daughter was born to the Dhes of York on August the 22nd.

Miss Jean Pattinson, of Coleman, has been appointed teacher of Glen Creek school, north of Cowley.

The Knights of Pythias at Drumheller have opened a soup kitchen for the unemployed.

Mr. and Mrs. G. Steeves motored to Calgary on Monday, returning last evening.

Rev. and Mrs. Young and children, and Miss Aiken, of Calgary and Millet, left for home today, after a visit of one week in this district.

Dr. Walkey, of Pincher Creek, attended the British and Canadian Medical Association convention at Winnipeg this week.

Miss Marie Lamey, of Bellevue, left Saturday for Quebec, where she will continue her course of studies at the Ursuline Convent.

The editor of this g. f. left Sunday night for points east as far as Nova Scotia and Newfoundland, and will be away several weeks.

Mrs. Altmatt has returned from holidaying to again take up her work of teaching music and playing, for dances in the Pass.

John Engle, aged 60, and his son aged 18, together with Alex. Derr, 35, and five horses were killed by lightning near Hanna, Alberta, on August the 19th.

Mrs. Charles Clark, of High River, who is summering with friends at their beautiful summer home overlooking the St. Lawrence, had a wonderful view of the R-100.

Bert Sensier is nursing a crippled hand, sustained while attempting to close a box-car door. Bert feels quite incompetent and states that he is sorry he hadn't taken up nursing in his early days.

Rev. A. S. Partington, Anglican church minister and family have returned from summer holidays, and services will be resumed at St. Luke's church from Sunday morning next at 11.15.

Mr. and Mrs. W. Bond, of Lethbridge, are Blairmore visitors. Mr. Bond relieved at the local customs office last fall and is renewing acquaintances while passing through on an extended motor trip into British Columbia.

Possibility that Grade VIII examination results will not be announced this year through the newspapers. The fact that the results were usually out shortly after August 1st, before advices had been mailed to individual students, and that although many of these advices had been received without the school board being sent the complete list, was taken as meaning that they would not be announced through the press.

Their Majesties the King and Queen arrived at Aberdeen, Scotland, on the morning of August 23rd with their youngest son, Prince George. They were met at the station by the lord provost of the city, the magistrates and an unusually large crowd. The King was attired in kilts and wore the Royal Stuart tartan. He smilingly accepted congratulations from the lord provost on the birth of a granddaughter, the first princess born in Scotland for more than 300 years.

Anger is a Poison

and very often caused by poisons from your food. If you find yourself angry often for slight cause, look to your food.

MOTHER'S BREAD

is the great harmonizer. Instead of fighting with other foods, it gently soothes and promotes digestion. It's all food.
